

## 36 Optical Fiber Fusion Splicer

Highlights Fusion splicers are essential for creating low-loss, high-performance fiber optic connections in telecom, FTTH, and data center applications. The best splicers offer core alignment, ...

4.3 inch high resolution screen. Splicing and heating about 250 times. Supports customization in various colors. Any common optical fiber, rubber-insulated optical fiber and patch cord meeting the ...

Easy-to-use, easy-to-learn, these portable battery-operated splicers reduce training time for efficient deployments-making fusion splicing the choice for both optimum reliability and affordability.

The Sumitomo Electric Type-36 Fusion Splicer is a reliable and efficient tool for splicing optical fibers. This kit includes the fusion splicer and a fiber cleaver, essential for preparing fibers for splicing. It has ...

The TYPE-36 offers easy-to-use operation with compactness, light weight, high speed splicing, high reliability, low maintenance cost and full technical support.

When it comes to optical fiber fusion splicers, no other company in the world can match Sumitomo Electric Lightwave for innovation, speed, and performance. The entire industry-leading range of ...

Prepared fiber ends are placed in the splicer and automatically aligned and then fused together. This method ensures greater reliability with less light being scattered or reflected back by the splice.

Graphical display: High-performance 4.3 inch touch LCD Battery capacity: 5200mAh Magnification time: 300 Fusion records: 10000 groups Single gross weight: 5.8kg Single package siz: 42\*34\*25cm Show ...

Add to cart FX39 Fusion Splicer Fiber Optical 6s Fast Splicing, 6 Motors Touch Screen Core Alignment Fiber Splicer with 7800mAh Large Battery Capacity+5000 Electrodes Life+Power Meter -70~+10dB ...

The Type-36 is one of the smallest and fastest core alignment fusion splicers available today. It s a portable, fully automatic, self-contained instrument for creating low-loss optical fiber splices in both ...
