

45-degree bridge climbing bend

Choose the right climbing wall angle, from 10-degree slabs for beginners to 45-degree overhangs for pros, to enhance training effectiveness and enjoyment.

What i am asking is, does anybody have a chart or something similar that lists the actual bend in degrees you need to achieve a 30, 45 or 90 degree bend on a hydraulic bender?

Enjoy the videos and music you love, upload original content, and share it all with friends, family, and the world on .
