

800G optical module SFP available for immediate shipment

CC-OSFP08SR8-12D OSFP transceiver modules are designed for use in 800 Gigabit Ethernet or InfiniBand links up to 100m multi-mode fiber. They are compliant with the OSFP MSA, IEEE ...

The 800G pluggable MSA released the first version of the specification in Q4 2020, with a small number of devices already in prototype and the first 800G optical models expected to be available in 2021.

The 800g QSFP-DD/OSFP modules produced by SULITON are suitable for most switch brands on the market, such as MSA, Cisco, Huawei, Juniper, Dell, Edge-Core and other switches.

We listen to our customers and develop products that meet their requirements with best-in-class quality, power and optical performance. This is enabling our customers to shorten their time to market and ...

The Cisco ® OSFP 800G transceiver modules provide 800 Gigabit Ethernet (GE), 2x 400GE, 4x 200GE, and 8x 100GE connectivity options, complying with the Octal Small Form Factor ...

Click to get your 800G transceiver modules and cables from nearby warehouses. 30-Day Free Return. Trusted by 260K+ Enterprise Users.

Lumentum's 800G 2×DR4 OSFP transceiver provides high-speed, energy-efficient optical connectivity for AI and cloud data centers. Each module integrates eight electrical and eight optical channels ...

Talk with us directly using LiveChat.

From legacy 1G SFP uplinks to hyperscale 800G OSFP AI clusters, our modules are built on MSA standards and powered by top-tier DSP chips (Broadcom/Inphi). We offer a cost-effective alternative ...

Our experts can easily diagnose any SFP code-related issue and quickly resolve it. When you require a guaranteed and affordable service, feel free to contact us! Our mission is to provide innovative fiber ...
