APC Composite Connector

An APC Series connector is designed to support both power and signal requirements in a rugged circular format that is easier to handle than many heavier metal alternatives.

The APC Series includes couplings with valves and thumb latch shrouds. A more rugged design on some models adds durability to increase the APC's application range.

APC connector is the most widely used fiber connector type today. "APC" stands for Angled Physical Connect. The angle of the ferrule end face is the 8-degree angle, which is very ...
