

Active optical modules with anti-electrocution properties shipped worldwide

Broadex Technologies' high performance and cost effective 100G Optical Transceiver Modules are built utilizing our innovative SiPh and COB technology. These reliable and robust QSFP28 modules ...

Semtech designs the industry's most innovative optical, analog and mixed-signal semiconductor solutions to serve the rising global demand for high-speed data transmission products. Semtech is ...

Mellanox active optical modules provide outstanding performance for high-bandwidth fabrics, extending the benefits of Mellanox's high-performance InfiniBand and 10 Gigabit Ethernet adapters throughout ...

Active Optical Cables (AOC) use optical fibers, allowing for longer distance transmission compared to copper cables and being less susceptible to electromagnetic interference. They are lightweight, ...

Amphenol's 10G SFP+ optical modules include SFP+ AOC. They are compliant with SFP+ MSA, SFF-8431 and SFF-8472, and are mainly used in Telecom, Wireless, InfiniBand, and ...

ZION provides a range of high-quality, independently verified active optical components suitable for diverse settings, from large venues to small businesses.

On-board optical transceiver solutions designed and manufactured by Amphenol AOP in Berlin, Germany.

To realize next-generation photonics convergence, SHINKO is developing a multilayer, high-density substrate with optical waveguides for high-speed transmission and high-capacity communication ...

ACD OEM-certified SFP+ AOC Complete Kits are guaranteed to work with all leading brands, including Cisco, HP ProCurve, Dell, Brocade, Netgear, and more.

Get the highest quality, performance-leading optical transceivers for any network architecture. Find the transceiver model to fit your network.
