

Armored Flame-Retardant 8-Core Optical Cable

Flame Retardant: The cable features flame retardant properties for fire safety. ROHS Compliant: Manufactured using environmentally friendly materials and conforms to RoHS standards.

Jelly filled (non-dripping and silicon-free) loose tube with primary coated optical fibers (250µm) High mechanical and full rodent protection provided by Corrugated Steel Tape (CST) armor

With a flame-retardant outer jacket, this cable is particularly useful for heavy traffic or more challenging mechanical exposure conditions and applications requiring extra rugged cables.

The Draka S670T series of Marine Shipboard armored fiber optic cables are designed especially for the harsh environments of commercial marine vessels, offshore oil platforms, drilling rigs, and other ...

Offered in OM1, OM3 and OM4 multimode and OS2 singlemode, in 4, 8, 12 or 24 core fibre configurations. All feature a corrugated steel tape armour for protection from rodents, a central loose ...

CommScope designs and manufactures a comprehensive line of fiber optic cables--from outside plant to indoor/outdoor and fire-rated indoor fiber cables.

This 1000-meter stranded cable combines robust armoring and flame retardant protection to ensure reliable, long-distance communication in demanding environments, making it ideal for telecom, ...

Engineered with flame-retardant materials and steel tape armor, this 8-core fiber optic cable offers superior fire resistance, mechanical protection, and signal quality for advanced networking ...

TMT GLOBAL Fiber Optic Cable offers a high-quality multimode 8 core armored fiber optic cable om3. This fiber optic cable is designed to provide reliable and efficient data transmission for various ...

A fire-resistant fibre optic cable meeting IEC60331-25 & EN50200 PH120 with a Steel Wire Armour protective layer, giving excellent mechanical & rodent protection between two Low Smoke Zero ...
