Explore our premium rack cabinets, enclosures, and consoles tailored for tech-rich environments, ensuring superior electronic equipment protection.

In some electronic products factories, an ESD protection storage protects a circuit from an Electrostatic discharge (ESD), in order to prevent a malfunction or breakdown of an electronic device.

We took off more than eight years ago in the Republic of Belarus under the brand of GETTERS. In the meantime, we made it to the leading position in the electronic systems protection market in the CIS.

For more than 28 years we have been producing and selling trade and warehouse racks, cashboxes, as well as branded equipment. Our experience allows us to fulfill orders of the most varied complexity.

Beat the competition with our enclosure and case system, distinguished by its simplicity, assembly-friendliness and versatile functions.
