Start by getting the tunnel alignment and then work out your offset relative to the line coordinate system. It might also be possible to create a polyline with points, translate the Z value and ...

T& B ® cable tray files for building information modelling (BIM) ABB is a leading force in the cable tray systems industry. We offer a wide range of products to meet the need for safe, smart and sustainable ...

T& B ® cable tray files for building information modelling (BIM) ABB is a leading force in the cable tray systems industry. We offer a wide range of products to meet the ...

Download free BIM objects of Chalfant Manufacturing Company for SketchUp, Autodesk, Revit, Vectorworks or ArchiCAD.

Download quality free BIM & Revit Components for the Cable Tray System from voestalpine Metsec plc for free.

Download free BIM objects from over 2 000 manufacturers. Choose among BIM objects for SketchUp, Autodesk, Revit, Vectorworks or ArchiCAD.

Draw the cable tray by setting an offset and defining the path of the tray. The cable tray type parameters control what fittings are used at elbows, tees, and vertical segments when you change the offset.

Specifies an offset between where you click in the drawing area and where the cable tray is drawn. This option is helpful when placing cable tray at a fixed distance from another component in a view.

For Ducts and Cable Trays the Offset should follow the Vertical Justification. For Example, if you draw a Cable Tray with the vertical justification "Bottom" and an offset of 23cm, the offset ...
