

Busline heat shrink tubing high and low pressure

Choose from our selection of bus bar heat-shrink tubing in a wide range of styles and sizes. Same and Next Day Delivery.

Easy to install and cost-effective, this heat shrink tubing adapts to different busbar sizes, providing tight and uniform coverage, greatly simplifying installation and reducing maintenance costs.

Most often used as insulation material when connecting wires together, these tubes can be used to group wires together, or insulate items from mechanical wear plus a lot more.

Explore Heat shrink tubing for bus bars from 3M, Raychem, and Delfingen. Available in 600V-36kV ratings with custom fabrication options for copper and aluminum busbars.

Bus Bar Heat Shrink Tubing is designed for insulating rectangular, square and round bus bar rated from 1 kV through 35 kV. It will also cover and insulate inline bolted connections of rectangular bus bars. ...

3M(TM) Bus Bar Heat Shrink Tubing BBI is a flame retardant tubing that provides reliable protection and insulation for 5 to 35 kV rated applications. The cross linked polyolefin construction is split and ...

With 2:1 shrink ratio, this high-performance flexible fluoropolymer tubing is designed for jacketing and bundling of wires to form light-duty harnesses, especially where low profile, abrasion resistance, and ...

SKBT-HV High Voltage Heat shrink busbar insulation tubing is a kind of continuous tubing made of radiation cross-linked polyolefin which carries excellent insulating performance.

The tube is made of a special formulated heat shrinkable cross linked polyolefin based material providing excellent electrical insulation property for both indoor and outdoor environments.
