

Customized Active Optical Cable 1G

High-quality, affordable, custom-made active optical cables for multi-line data communications, interconnecting applications, and high-performance computing.

With high-speed, high-reliability transmission, FS twinax cables come in different lengths to support different transmission data rates, such as 1G, 10G, 50G, 200G, 400G, 800G.

Options include black, orange, and blue, with custom colors available for tailored solutions. TTI AOC cables come in a variety of standard lengths, ranging from 1m to 100m, with custom lengths available ...

Discover unparalleled performance with our Custom Active Optical Cable Assemblies. Tailor-made solutions for your specific needs, ensuring high-speed, reliable connections.

Designed to support data rates from 12G to 400G, AOCs integrate fiber-optic transceivers directly into the cable to provide faster transmission, longer reach, and improved signal ...

Explore Pivotal Optics complete product line of optical transceivers, DAC & AOC cables from 1G to 400G for data centers & enterprise networks. View all products!

The 1G SFP Active Optical Cable (AOC) is a high-performance, cost-effective solution designed for high-speed, short-range data communication in data centers, storage networks, and other short-range ...

High-performance AOC solutions from 1G to 800G for data centers & enterprise networks. 100% compatible with major brands. Custom designs available with global technical support.

Discover unparalleled performance with our Custom Active ...

Choose from our range of Active Optical Cables and Direct Attach Cables that support all form factors up to 800G. AOCs options include Environmentally Ruggedized or RAOCs design, are available in ...

Production crews benefit from custom connectors and specific cable lengths provided by experienced Active Optical Cable Suppliers, ensuring compatibility with various cameras, monitors, and editing ...
