

Customized Communication Optical Module

We have designed and manufactured a full range of custom and standard optoelectronic devices for Military, Aerospace and Industrial applications including: Contact our team to find out how we can ...

Our optical modules at Matrix PT Tech Co., Ltd. are meticulously crafted to meet the demands of modern connectivity needs, ensuring optimal performance and longevity, With a diverse range of ...

We design and manufacture a full portfolio from POF transceivers to 25G SFP+/DWDM modules, including plug-and-play compatible replacements for AVAGO/Broadcom HFBR series.

Custom Optical ICs & Modules EOSPACE has delivered many custom integrated optical circuits and modules for commercial and DoD applications Examples (call for custom requirements): A dual 4-bit ...

Thorlabs partnered with a customer in need of design and manufacturing services for a ruggedized optical communication transceiver module. The project was at the concept stage under the ...

Sanoc offers customized transceiver solutions for fiber-optic communication systems. We design and manufacture high-performance, low-power optical transceivers tailored to your specific requirements, ...

This article explores MPS optical module solutions to meet the design requirements of high-speed optical communication as well as different laser diode applications.

A wide selection of WDM components ranging from thin-film DWDM and CWDM filters with different channel spacings, customized band WDM filters, to planar-waveguides, fused WDM components ...

View the TI Optical module block diagram, product recommendations, reference designs and start designing.

Wavelength Management dules, optical monitoring modules, and passive optics. These modules benefit from Coherent's deep technology vertical stack, and are integrated with electronics and software
