

# Does a router always need to be placed inside a fiber optic box

During your fiber-optic installation, your technician will need outdoor and indoor access to where you want to plug in your router. Usually, they'll complete the installation steps in this order: ...

Learn the key differences between indoor and outdoor ONT installations. Discover expert tips to choose the right placement for reliable, hassle-free fiber internet.

Today, we'll explore everything you need to know about where to put your WiFi router, including the best locations, the worst spots to avoid, and what to do if router placement alone isn't ...

In contrast to the modem situation, any router can work with a fiber connection. That's no exaggeration, either--if it has an Ethernet port (and nearly every modern router does), you can ...

The tech said they wouldn't recommend using a cable from the ONT box to the router longer than 6", but ours would be longer than that if we did it. Would this be an issue?

Want to greatly improve wi-fi signal throughout your new home? We provide the best (and worst) spots for router placement so you can maximize your internet speed.

A big reason that I'm asking is that my house already has coax running to almost every room, and if the fiber ends and coax starts outside of my house, I'll need to trace the coax to where it ...

Once your connection is verified, where you place your router determines how well that speed reaches every room -- see our guide to the best place to set up your router for placement tips ...

Fiber optic internet offers incredible speed and reliability. You'll typically need an Optical Network Terminal (ONT) provided by your installer, an Ethernet cable to connect the ONT to your ...

Learn the key differences between indoor and outdoor ONT installations. Discover expert tips to choose the right placement for reliable, ...

For best results, choose a router that supports gigabit or multi-gigabit speeds and modern standards like Wi-Fi 6 (802.11ax) or newer. Installing the router in a centrally located position within ...
