

Dutch fiberglass composite cable trays

Our Fiberglass tray weighs 1/3 that of steel trays and is pound for pound stronger. This makes the tray easy to install, reduces the possibility of lifting accidents, and lowers transportation costs.

Chalfant Ladder Cable Tray Systems are ideal for indoor and outdoor cable management. They provide reliability, ease of installation, and cost savings both initially and long term.

Made of fiberglass-reinforced plastic, FRP trays are extremely corrosion-resistant and durable, thriving in the most aggressive environments. They are naturally non-conductive and lightweight, yet strong ...

Built using premium resins and advanced manufacturing techniques, our trays provide secure cable routing, withstand extreme weather, and require minimal maintenance--making them the ideal ...

We proudly manufacture and supply a diverse range of premium-quality cable trays, designed to meet the demands of industries like chemical plants, refineries, and power plants.

Build a cable management system with Cablofil wire mesh cable tray, ladder cable tray, prefab assemblies for branch circuit wiring, fasteners, and accessories.

Designed for modern industrial demands, our trays offer exceptional corrosion resistance, high strength-to-weight ratio, and fire-retardant properties--making them ideal for harsh or mission-critical ...

Made from the highest quality pultruded materials, our Fiber Reinforced Polymer (FRP) cable tray is extremely durable and resistant to chemical attack, with a proven record of performance in the most ...

EFG Composites" cable tray incorporates a synthetic veil on the surface of all structural shapes which causes a resin rich layer which enhances corrosion protection. An abbreviated guide can be provided ...

Learn fiberglass cable tray types and specs. Compare trough, tray, ladder and epoxy composite systems to choose the right cable support for industrial projects.
