PRIZM[®] MT is a monolithic optical fiber ferrule that integrates microlenses and mechanical alignment features into a single component. The design provides low ...

PRIZM[®] MT is a monolithic optical fiber ferrule that integrates microlenses and mechanical alignment features into a single component. The design provides low insertion loss and return loss for up to 32 ...

Within our factory, we operate first-class equipment and have an expert manufacturing history of nearly 2 decades, allowing us to provide top of the line fiber optic cables, fiber connectors, fiber optic ...

Bynet MT/FA components enable low-loss, high-density connections for data centers, 5G & transceivers. Features precise V-groove alignment, 0[°]/8[°]/45[°]; polish, and SM/MM/PM fiber support.

MEISU 45 degrees fiber array is V-groove based fiber array with fiber tip or block end face polished 45 degrees to achieve 90-degree reflection to the beam. Efficient for light aligning to the grating coupler ...

Fiber optic MT (Mechanical Transfer) connectors are high-density multi-fiber connectors used to support high-speed data transmission. They are compact, lightweight, and can house multiple fibers in a ...

FAU (Fiber Array Unit) multifiber assemblies offer high-density, high bandwidth solutions for the new era of fiber optic applications, including telecommunications, data centers, silicon photonics, defense and ...

Our portfolio includes single-channel, multi-channel, wavelength multiplexing, and coupling solutions, ideal for high-speed transceivers, TOSA/ROSA, and silicon photonics. Explore GLSUN's full range of ...

Manufacturer of fiberoptic assemblies and components including microlenses, hermetic fiber tail assemblies, micro-isolators, cleaved and lensed fiber assemblies, fiberoptic seals, ...

11/65/EU GR-1221-Core GR-1209 Corning OEM offers a broad range of Fiber Array Units (FAUs) for long-haul, metro networks.

MT-FA (Multi-fiber Array) technology is one of the earliest and most widely used fiber array systems. It is designed to manage a large number of optical fibers in a compact space. The MT-FA fiber array ...
