

French Liquid-Cooled Switch 100G

The design, material, and manufacturing specifications offer complete liquid cooling compatibility, allowing the switch to maintain high performance and reliability in a high-temperature, high-density ...

The DynaNET 100G-01 is liquid cooled and has no vents nor moving parts, dramatically increasing reliability. Since it does not require any ventilation, the DynaNET 100G-01 is extremely compact and ...

These switches deliver speeds of up to 100Gbps, making them ideal for high-demand applications such as big data analytics, cloud computing, and high-performance computing.

FS 100 Gigabit data center switches with build-in broadcom switch chip provides powerful hardware switching capacity and data center features (supporting stacking, MLAG, RoCEv2, PFC, ECN, ...

FS 100G Switches offer high programmability and scalability, designed for large enterprises and hyper-converged infrastructure (HCI) networks. [Learn more!](#)

FS 100G Ethernet Switches with high speed and port density give you cost-effective options to incrementally upgrade and have flexible bandwidth across the existing infrastructure in enterprise ...

Amphenol's Rugged 432-Channel 100G Ethernet Switch Box is liquid cooled and configurable for system connectivity, speeds, port types, and interoperation with various high-speed media ...

WILDSTAR 100GbE 6E10 6U OpenVPX Switch is a rugged 6U board that provides switching between backplane slots of multiple channels of 100Gb Ethernet. It also has front panel I/O which can be used ...
