

Ensure fiber network uptime with PON-specific testing tools. Validate GPON/XGS-PON performance, detect faults, and optimize installations in real time.

Monitor, activate, and troubleshoot PON networks with EXFO's OTDR, power meter, and passive probe tools for reliable GPON/XGS-PON deployments.

The VIAVI SmartClass OLP-88 is an innovative Passive Optical Network (PON) tester using GPON data analysis technology. For GPON network service activation & support.

The XGS-1577 XGSPON Meter is a high-performance testing tool designed for accurate and simultaneous measurements of upstream and downstream PON wavelengths in optical networks.

The XGS-1577 XGSPON Meter is a high-performance testing tool designed for accurate and simultaneous measurements of upstream and downstream PON ...

How to test and verify GPON transmission equipment including interoperability and conformance with TR-255 and TR-247/ATP-247? Read the Free White Paper.

Simple, cost effective PON / GPON / XGPON testers for last mile passive optical networks (e.g. for fiber to the home FTTH / FTTX equipment). Kingfisher's GPON test equipment is proven to help a smooth ...

An economical, in-line PON meter used during FTTH / PON service turn-up or maintenance, to perform a live optical power test with optical loss test (OLT) equipment.

Explore our full range of inspection tools, OTDRs, power meters, FTTx diagnostics, and software designed for fast, reliable network deployment and maintenance.

TruePON Testers for use in G-PON, XGS-PON and hybrid systems. Visual fault locators for fiber bends and breaks, localization of damages and end-to-end continuity check. Live Fiber Identifier easily ...
