

High Temperature Resistance Installation Solution for Japanese PDU Power Distribution Units

HEAVYCON heavy-duty connectors ensure space-saving, high-performance power transmission compared to conventional CEE plug-in devices. They also feature quick and error-free startup. With ...

Made in Japan, this product is characterized by short delivery times and high quality. Widely adopted in major data centers across Japan. Standardized by leading rack manufacturers.

Providing reliable and cost effective power distribution, the Basic PDU offers IEC outlet grips, tool-less installation in server racks, color-coded outlet sections and a high operating temperature.

Discover the cornerstone of efficient power management with Power Temp Systems" Power Distribution Units (PDU). Engineered for reliability and precision, our PDUs ensure seamless power distribution, ...

To support power distribution requirements in network and server racks and cabinets, Legrand manufactures a range of Power Distribution Units (PDU) to meet the needs of your installation.

h operating temperatures could also shorten the lifetime of these components. While power de-rating is a very important factor in determining operating ambient air temperature, the air temperature ...

Server Technology produces the highest quality Data Center rackmount power distribution units (PDUs) and monitoring solutions.

Our innovative power distribution units and rack PDUs not only maintain power, but they also enable us to support you in any challenges your IT infrastructure might face.

Custom load-specific distribution blueprints designed for maximum power density and thermal stability across your whitespace. Built in our state-of-the-art US facility using premium components from ...
