

High-density spiral wound tube explosion-proof type in stock

Due to the unique spiral wound tube structure, the material and circulating water form a strong turbulent flow state in the heat exchanger, making the cold and hot media fully contact with the tube wall, ...

Multilayer heat-shrink tubing with high mechanical resistance and high thermal coefficient, to fix and protect against centrifugal forces of all types of permanent magnets applied on the rotors of BLDC ...

Crescent Paper Tube offers round, spiral wound and construction tubes for concrete footings, pilings, and other round structures. These tubes contain outside and inside plies that are weather resistant ...

HDPE/PP profiled spiral wound pipe systems, available in various stiffness classes, are designed for utility and industrial applications. These pipes are made from high-density Polyethylene (HDPE) or ...

Shop high-quality spiral wound tubes for efficient heat transfer. Find durable, customizable solutions for various applications. Perfect for HVAC and industrial use.

Helix International Tube Division manufactures and supplies Spiral Metal Filter Tubes globally from our facilities located in the USA. We have served the filtration needs of our customers since 2009.

Developed by Esen Plastik, Spiral Wound Corrugated Pipes are manufactured from high-density polyethylene (HDPE) using advanced extrusion and spiral winding technology.

The spiral wound cylindrical structure completely eliminates the pull-off force between the heat transfer tubes and the tube plates, greatly extending the product's lifespan.

AS9100 and ISO 9001:2015 certified manufacturer specializing in tube fabrications, tube bending and weldments for use in aerospace, military, high-performance, and medium to heavy duty ...

Electrolock can provide large continuous length tubing in rolls that are either Layflat or spiral wound constructions. These can be easily incorporated into your automated production equipment to save ...
