

High-speed fiber optic rotary connector

Our popular FORJ systems (Fibre Optic Rotary Joints) are designed & manufactured for high-speed data-transfer on many high-tech applications.

Reaching high into the sky; very high or tall. Also figurative. Measuring a great distance from top to bottom; extending far upward; lofty, tall. Also: rising considerably from a surface (cf. high ...

high implies marked extension upward and is applied chiefly to things which rise from a base or foundation or are placed at a conspicuous height above a lower level.

Spin Tact(TM) Fiber Optic Rotary Joints (FORJs) provide high-speed, EMI-immune optical data transfer across rotating interfaces without signal interruption. They are designed for applications where ...

Proterial Fiber Optic Rotary Joint allows no-interference optical signal transmission while rotating along the optical fiber axis. FORJs are widely used in cable reel systems from cranes to sensing systems ...

Our optical rotary joints deliver signals with low insertion loss and high return loss at high speeds. We offer fiber optic rotary joints with up to 109 channels, as well as custom-designed optical rotary joints.

NBG manufactures fiber optic rotary joints delivering low insertion loss and stable high-speed data transmission for medical, radar, and industrial systems.

Contact us today and make your orders for the best quality and high-speed rotary joints. From the deep waters to the outer space, MOFLON rotary joints and slip rings are trusted by millions of people ...
