

Huawei Core Switch Dual-Machine

CloudEngine S16700 series switches (S16700 for short) are Huawei's next-generation modular core switches designed for high-end campus networks in the all-wireless era. S16700 series switches ...

Every enterprise network has a silent dictator--the Huawei core switch. Buried in server rooms or data centers, this unassuming device governs traffic flow between departments, cloud ...

Huawei Ethernet Switches Turbocharge your enterprise network with high-performance, high-availability for resilient services and simplified management.

CloudEngine S12700H series switches are Huawei's next-generation modular core/aggregation switches designed for high-end campus networks in the all-wireless era of Wi-Fi 6/7. CloudEngine S12700H ...

Huawei CloudEngine S12700E series switches deliver high performance, unmatched security and reliability at the core of high-end campus networks. Learn more!

Using Huawei's next-generation VRP8 software platform, CE12800 series switches provide stable, reliable, secure, high-performance L2/L3 switching capabilities to help build an elastic, virtualized, ...

Huawei CloudEngine (CE) series switches are high-performance cloud switches designed for next-generation data centers and high-end campus networks.

Huawei CloudEngine 12800 series switches are next-generation, high-performance core switches designed for data centers and high-end campus networks. They provide stable, reliable, secure, and ...

Next generation of high-performance, high-density Ethernet switches, offering flexible port combinations and expansion capabilities from GE to 400GE, enabling rapid service evolution for enterprises.

With multiple industry-leading intellectual properties and patents, Huawei provides more than a hundred switch models in more than 10 series, including access, aggregation, and core switching.
