

Hungarian Fiber Optic Cable Winding Machine

Developed for the fast and accurate rewinding of optical fibers, fiber optic cables and delicate filaments, these systems achieve winding speeds of up to 1000 m/min, all while ensuring exceptional tension ...

A significant component of our offering is the semi-automatic precision winding machine, specifically designed for processing different types of fibers. This machine allows for precise control and ensures ...

With the motor-driven cable winding machine for rings and spools up to max. 800 mm outer diameter, winding materials can be wound, measured to length and cut off at the same time.

Discover top fiber optic winding machines with precision tension control, PLC systems, and AI monitoring. Find reliable suppliers, compare specs, and click to source high-performance equipment ...

Fully automatic fiber winding machine for high-precision and high-speed winding of optical fibers. Ensures stable tension, uniform arrangement, and efficient production for fiber processing.

The cable is positioned perfectly side by side without major gaps or cable crossings, ensuring high quality and a very presentable product. The Precision Coiling Unit is 100 % automatic and eliminates ...

Spooling and winding machine for small gauge wire, finest wire and fiber optic cable. The MW class spool winder is multi-functional, can be used as a pay-off winder and a moving take-up unit. The ...

Speed in combination with the product range may require modification on standard machines. We will adapt the machine to your requirements. Our winders are designed for fast and maintenance-friendly ...

Our equipment ensures efficient, reliable and seamless operation for all your cable winding and unwinding needs. Explore our range of Payoffs, Take-ups and Rewind Lines today.

Discover fiber optic winding machines with CE certification, automatic touch screen control, and high-speed precision for efficient cable production.
