

Idsu optical module

For multimode enterprise networks and high power applications, the SmartPocket series power meters offer a range of optical fiber testing and troubleshooting capabilities for the field.

The key elements of the 5205-T ITLAs are the Sampled Grating Distributed Bragg Reflector lasers, monolithically integrated with a semiconductor optical amplifier and an integral wavelength locker, all ...

The MTS-8000 is a field-scalable optical test platform for both installation and maintenance. Based on the rich MTS-5000 heritage, the MTS8000 is the industry's most innovative and cost-effective test ...

The built-in beam blocking switch provides fast access from any attenuation setting to infinite attenuation (> 90 dB). The JDSU Optics Module may still be available for purchase and support from Artisan ...

Built-in optical talkset option for communicating along the fiber. Unique automatic bi-directional analysis function available to save up to 50% test time for OTDR, IL, and ORL measurements. Fast data ...

The OTDR module ensures maximum test productivity by providing one-button, automated operation for all of its critical test routines and a very high data acquisition speed of 40 dB in seconds.

The T-BERD/MTS-6000 is compatible with existing JDSU fiber modules, so technicians can interchange its plug-in modules in the field with the T ...

JDSU offers over thirty OTDR modules for testing and troubleshooting any multimode or singlemode network. The MTS-6000 features JDSU's industry-leading 50 dB UHD OTDR module.

The plug-in's automation and rapid testing features offer impressive time savings for companies involved in commissioning and locating faults in optical fiber networks.

The built-in beam blocking switch provides fast access from any attenuation ...

The T-BERD/MTS-6000 is compatible with existing JDSU fiber modules, so technicians can interchange its plug-in modules in the field with the T-BERD/MTS-8000 Scalable Optical Test ...

Modular in design, the MTS-6000 offers an extensive portfolio of test functionality, with over 40 different fiber modules supporting a wide range of applications, and is a single source for ...
