

# Illegal occupation of optical cables

Due to unauthorised OFCs, dish cable and internet data cables laid on electric poles, two pedestrians are injured coming under the toppling electric poles in two separate incidents in...

Utility companies can enter your property without asking if they hold a recorded easement over part of your land, which most do. That easement is a legal right attached to your property deed, ...

No person shall intercept or receive or assist in intercepting or receiving any communications service offered over a cable system, unless specifically authorized to do so by a cable operator or as may ...

Bescom had identified and removed nearly 3,200 km of illegal cables attached to the electrical infrastructure. However, nearly a year later, many of these cables have reappeared.

Cable companies may have legal rights to dig in your yard through utility easements, but there are limits -- and steps you can take if they cause damage.

When a company or individual carries out fiber optic work on your property without your consent, it may be considered trespassing or a violation of property rights.

Building owners and tower ground leaseholders nationwide are being contacted on a regular basis by the wireless carriers and tower companies who occupy their property to grant access rights for fiber ...

Cable companies may have legal rights to access your property, but those rights have limits. Here's what property owners should know about easements, compensation, and your options.

If a cable line crosses your property without permission, here's how to document it, contact the right people, and protect your rights.

Building fiber optic networks in rural areas, like farms and forests in particular, poses ROW issues and a significant challenge for ISPs, affecting both costs and timelines for network ...
