

Italian composite fiberglass cable trays

Built using premium resins and advanced manufacturing techniques, our trays provide secure cable routing, withstand extreme weather, and require minimal maintenance--making them the ideal ...

It has an excellent fire behaviour, self-extinguishing and with a very low smoke emission; the polyester reinforced with fiberglass allows the normal dissipation of the cables heat, protecting them at the ...

For almost 40 years, we've manufactured high-performance cable tray systems, catering to both customized and standard needs in industrial and civil applications.

Discover the top cable tray manufacturers in Italia, offering innovative, durable, and high-quality cable management solutions for industrial and commercial applications.

Designed for modern industrial demands, our trays offer exceptional corrosion resistance, high strength-to-weight ratio, and fire-retardant properties--making them ideal for harsh or mission-critical ...

Learn fiberglass cable tray types and specs. Compare trough, tray, ladder and epoxy composite systems to choose the right cable support for industrial projects.

EFG Composites" cable tray incorporates a synthetic veil on the surface of all structural shapes which causes a resin rich layer which enhances corrosion protection. An abbreviated guide can be provided ...

Our fiberglass cable tray has been designed by our technical experts to meet customer needs for quality performance in the harshest environments. Our Glass-Reinforced Polymer (GRP) cable tray systems ...

Made of fiberglass-reinforced plastic, FRP trays are extremely corrosion-resistant and durable, thriving in the most aggressive environments. They are naturally non-conductive and lightweight, yet strong ...

Our Fiberglass tray weighs 1/3 that of steel trays and is pound for pound stronger. This makes the tray easy to install, reduces the possibility of lifting accidents, and lowers transportation costs.
