

Join SFP 400G optical module franchise

This article explores how to interconnect OSFP and QSFP-DD ports in 400G/800G networks, covering key principles, form factor differences, and practical solutions for stable, high-speed data center ...

400G optical transceivers supporting hyperscale cloud infrastructure and high-performance data center networking. Widely deployed for spine, aggregation, and data center interconnect applications ...

This investment allowed us to become an 800G, 400G, 200G and 100G Market Leader and we are proud to be seen by our customers as an important and trusted strategic transceiver partner.

The high performance and low power of the 400G QSFP-DD ULH module make it an optimal choice to extend Routed Optical Networking use cases to regional and ultra-long-haul ...

All Juniper qualified 400G optics are compliant with key industry standards and specifications for seamless interoperability in multivendor environments.

Our optical modules have passed the switch tests of commonly used brands such as Cisco, Huawei, Mikrotik, TP-LINK, H3C, HUAWEI, Ruijie, CISCO, HP, JUNIPER, INTEL, etc., with good ...

Our newest family of optical transceivers are 400GbE QSFP56-DD. These transceivers may be short-reach (SR4.2-ON, SR8, and VR4) over multimode fiber or intermediate-reach (FR4, EDR4, LR4, ...

Click to get your 400G transceiver modules and cables from nearby warehouses. 30-Day Free Return. Trusted by 260K+ Enterprise Users.

Svelol offers a comprehensive portfolio of high-quality, reliable 400G optical modules, including various QSFP-DD types. We provide solutions tailored for data center and telecom ...

Superson offers high-speed 400G optical transceiver solutions for data centers and high-performance networks, featuring the 400G QSFP-DD and 400G QSFP112 product families, as well as QSFP ...
