

Junction Box Anti-tracking

Made from radiation crosslinked polyolefins, it provides exceptional electrical insulation, tracking resistance, and mechanical protection for cable joints and terminations.

ECI n Distribution Transformer high voltage bushings in contaminated areas. Installation of the Anti-Tracking Kit is performed by placing the small spring around the bushing top ca ting between the ...

All of our applicable attachment plugs meet the anti-tracking performance level required by the technical standard of the Electrical Appliances and Materials Safety Act.

Choose from our selection of junction boxes, including over 2,800 products in a wide range of styles and sizes. Same and Next Day Delivery.

CTC designs its junction boxes with the needs of maintenance professionals in mind, offering rugged, reliable, and easy-to-use solutions that streamline data collection and protect critical connections.

Made with at least 50% recycled and/or biobased materials verified from source to product. These materials are verified throughout the entire supply chain, ensuring validation and traceability at every ...

For use on high voltage transformer bushings in contaminated areas, the Anti-Tracking Kit uses springs made of 302 stainless steel with a nickel-plated brass grommet.

This is an insulating tape for next-generation EVs that is the first in the industry to have both high heat resistance (RTI 180?) and tracking resistance (1000V). It can be used for insulating the chassis of ...

These materials prevent the formation of conductive paths, reducing the risk of electrical tracking and failures. Ideal for use in critical environments such as power plants, industrial machinery, and public ...

GJ6 Portable All Civil Bands GPS Jammer, anti tracking device GJ6 is a device to work with all types of GPS, as well as civil frequencies GPS, GLONASS, and LoJack. With this device, you can block all ...
