

Kenya Special Metals Spectrometer

Verify heavy metal contamination with analytical testing solutions to determine hazardous substance levels in food and feedstuffs from SGS. Heavy metals such as lead, cadmium, mercury ...

The chemical laboratory offers services of analysis of Base Metals and Trace Elements, precious metals and environmental pollutants. The Lab provide forensic geochemistry services to government law ...

Buy Hand-held XRF Analyzer Fluorescence Spectrometer for Ore Sample Metal Analysis online in Kenya and get this delivered to your address anywhere in the Kenya.

Featuring a high-sensitivity Si-pin/SDD probe, 50 KV X-ray tube, and a vibrant 3.5" industrial touch screen, it supports comprehensive elemental detection from titanium to uranium.

Accurate analysis of your metal and mineral commodities, from traditional base and precious metals to newer critical and battery metals.

Welcome to Lasany International, your premier destination for cutting-edge laboratory equipment and supplies. In our commitment to advancing scientific research and precision, we proudly serve as a ...

Powerful 50kV X-ray tube with 6 automated filters for accurate results on metals, alloys, and more. High sensitivity Si-PIN diode detector provides fast and precise elemental identification. Advanced Peltier ...

We have a global network of technical experts ready to help you select the correct methods for your metals and inorganics testing requirements. Selection will consider regulatory requirements, the ...

High-Performance Handheld XRF Analyzer: The DSF-S2 is a cutting-edge handheld X-ray fluorescence spectrometer designed for the rapid and non-destructive analysis of various alloy grades, ...

In this project, honey samples collected from different parts of Kenya, namely, Laikipia, Baringo, Nairobi, Ngong, Mbeere, Embu, Kitui, Kibwezi and Lamu were analysed to determine the levels of...
