

Luxembourg Core Switch SFP

Edge to core stackable platform, from 1 Gigabit to 100 Gigabit, all within 15.75in (40cm) of depth. A simplified user interface makes it easy to assign configuration profiles to each port. NETGEAR IGMP ...

This compact 1U switch delivers line rate 10GbE and 40GbE connectivity with very low latency for support of full internet routes. Optimize for your deployment with a model that provides 32 ports of ...

The Aruba CX 6300 Switch Series is a modern, flexible and intelligent family of stackable switches ideal for enterprise network access, aggregation, core and data center top of rack (ToR) deployments.

Core switch for small and medium-sized enterprise networks, with high scalability, efficiency, and manageability, and device-level and link-level reliabilities for stable connectivity.

QFX Series switches provide the universal building blocks for multiple data center fabric architectures, including Junos Fusion, QFabric System, Virtual Chassis, and Virtual Chassis Fabric.

L3 managed 10G uplink Ethernet core routing switch with 8*10/100/1000M RJ45 ports and 12*1/10G SFP+ fiber ports. Built-in 75W power supply and supports 1U/19" cabinet installation.

The HPE Aruba Networking CX 6300 Switch Series is a wire-speed solution that uses a fully distributed architecture with Gen7 ASICs that deliver low latency, increased packet buffering, and intelligent ...

This data sheet describes the benefits, specifications, and ordering information for the Cisco SFP Modules for Gigabit Ethernet Applications.

SEL ICON and SEL-2730M make use of small form-factor pluggable (SFP) transceivers for fiber optic communication. See the range of SFP data rate and distance options supported.
