

MR Cable Tray RZ

Cable Tray, 2" Deep, 4" Wide, 10" Long Cable Tray, 2" Depth x 4" Width x 10" Section, Material: Carbon Steel. Finish: Electroplated Zinc.

MP Husky's cable tray selector for choosing the correct tray type (ladder, solid bottom, perforated, wire mesh) and size based on load, cable type and installation requirements.

These trays are designed to hold and support various types of cables, including power cables, data cables, and communication cables. The cables are placed inside the trays and can be easily routed ...

From heavy power cable pathways on oil drilling platforms to data center cabling, explore the cable tray that's strong yet easy to install. Fast installation with dependable support.

For ease of installation and accessibility, lay cable and hose in trays instead of pulling it through conduit or raceway. These tray systems allow excellent ventilation and prevent sagging while routing.

Choose from our selection of wire cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

Class 4: Designed for use with A820E cable tray systems, which are 8" high. These systems have 2 3/4" wide side rail flanges and 8-hole heavy-duty splice plates.

The mounts for suspended ceilings are often bigger than the holes in cable trays, so I've used them in the past.

Our cable tray systems meet or exceed all the NEMA, UL, CTI, and CSA standards and are utilized in nearly every industry. All cable tray suppliers are not the same.
