

N-core fiber optic cable

CommScope designs and manufactures a comprehensive line of fiber optic cables--from outside plant to indoor/outdoor and fire-rated indoor fiber cables.

Belden's extensive line of indoor and outdoor cable products is offered in tight buffer and loose tube designs. Armored, burial, and ruggedized designs are suited to a host of industrial environments.

Send data between data centers and workstations in fiber-optic networks. The plastic outer jacket on this cable is flame retardant for safe indoor use, and resists water and UV light for outdoor use.

Faster and easier to install, with all the durability of a traditional outside plant cable. Corning's invention of the first low-loss optical fiber ignited the critical spark that began a communications revolution that ...

This Multimode Duplex Fiber Optic Patch Cable (50/125) - LC to MTRJ is built with genuine Corning Glass, has ceramic ferrules and a 50/125 micron core, this cable is suitable for extremely high speed ...

OS1 single mode fiber optic cables are made with a single mode fiber core, which means that they have a very small core diameter of 9 microns. This allows the cables to transmit data over much longer ...

Single mode fiber cables have a very narrow core, which keeps the path of the light narrow in turn, and results in a cable that can carry the light signal over greater distances before it ...

Optical Fiber Core could be applied as G.652.D, G.655, G.657.A1, G.657.A2, OM1, OM2, OM3, OM4 according to needs. Maximum Tensile Strength could be changed according to technical demand. ...

Online shopping for Fiber Optic Cables from a great selection at Electronics Store.

Our easy-payout boxes for Category 5e and Category 6 cables were designed with direct input and feedback from users. Our boxes feature dual reinforced handles and have proven to be as durable ...
