

Norwegian Fiber Optic Vibration Sensing Company

Holiday packages and partner deals Flight + hotel With Norwegian Holidays, we've got everything taken care of for your next great escape.

Cruises to Alaska, Hawaii, Bahamas, Europe, or Caribbean. Weekend getaways and great cruise specials. Experience Free at Sea(TM) with Norwegian Cruise Line.

Book a cruise with Norwegian Cruise Line and indulge in spacious staterooms, luxe amenities and more. Find a cruise ship for your ultimate vacation.

The Cruising of Your Choosing Cruising with Norwegian is not a one schedule fits all. With options for all ages, we let you dine, dress and discover however you want to. Out here, time flows at your own ...

The facility is the the largest purpose-built fibre-optic sensing infrastructure designed for seismological research. Using optical fibres for sensing ground vibrations, has huge potential for various ...

Fiber optic sensing works by measuring changes in the "backscattering" of light occurring in an optical fiber when the fiber encounters vibration, strain or temperature change.

The use of fiber technology is rapidly evolving, and at NORSAR, we leverage our extensive expertise in vibration detection and seismic monitoring to explore and develop applications beneficial to society.

NORSAR bruker primært Distributed Acoustic Sensing (DAS)-teknologi, som benytter fiberoptiske kabler--enten eksisterende telekommunikasjonskabler eller mer spesialiserte. Systemet ...

At NORSAR construction just finished of a new and unique test facility: NOR-FROST, the Norwegian Fibre Optic Sensing Test Site. NOR-FROST is open for collaboration and welcomes experiments ...

This facility is now open for use by the research community and is the largest purpose-built fibre-optic sensing infrastructure designed for seismological research.

Norwegian offers cheap flights worldwide. Book flights through our low fare calendar to your favourite destinations. Collect CashPoints and get hotel deals.
