

Oman 4-channel optical receiver

Post your classified ad for free in various categories like mobiles, tablets, cars, bikes, laptops, electronics, birds, houses, furniture, clothes, dresses for sale in Oman.

Part No: OR 401 o Compact optical receiver of 4 SAT IF signals o Built-in AGC system based on optical signal level o Virtual quatro o Powered by STB or external PS o Robust die-cast housing o ...

It can supply high quality of satellite live TV service that come from maximum 4 satellites for many users by FTTH, FTTB. GDS-6000 working wavelength is optional 1310nm or 1550nm. Choose 1550nm ...

Thanks to its optimized electronics and low losses, it is possible to reduce the number of amplifiers required and simplify deployment in collective installations, while preserving signal quality throughout ...

Optical to RF convertor for multiswitch systems. It supports 4 satellite polarities, digital TV, FM and DAB, and converts the optical power to RF power. Multiswitch distribution systems spread over long ...

Introducing the Guantai 4 Channels Video Fiber Optic Optical Converter Transmitter Receiver, designed to provide seamless and reliable transmission for your CCTV surveillance security needs.

The OR4x-S (a 4 port Optical Receiver) receives optically transmitted CATV signals. This unit is primarily used in upgraded cable television and fiber distribution systems.

The OR 9 QT optical receiver converts the received optical signal into an RF signal and outputs it to eight outputs with fixed SAT polarization planes and one terrestrial output for connecting multiswitch ...

Connection of singlemode type optical fibre. Especially designed for the delivery of terrestrial and satellite signals (analog and digital) over large collective installations.

This device is a CATV RF 4 Channel Cable TV Return Path optical Receiver. This unit provides the best way to transmit upstream signals in the 5-200mhz band
