

Optical Cable Splicing Box

The indoor/outdoor fiber splice box from Amphenol Network Solutions is designed for splice-only applications. They are suited for optical cable splice collection points for DAS, MTU and MDU.

Whether you need a compact solution or a more robust outdoor fiber-optic splice enclosure, we've got you covered. Use our solutions with different cable sizes and number of drops.

Furnished with four plugged cable ports (2 aluminum and 2 plastic) for either All-Dielectric Self-Supporting (ADSS) or Optical Ground Wire (OPGW) cables, the splice enclosure can be pre ...

With a maximum splicing capacity of 12 fibers, the FIMP-M splice box is suitable for various applications where moderate fiber connectivity is needed. This feature makes it a practical choice for smaller ...

Fiberlink provides fiber optic splice box products for FTTH solution, including fiber terminal box, fiber splice enclosure, optical distribution box.

Fiber joint box provides space and protection for the fiber optic cable splicing and joint. Fiber splice enclosure box is used for aerial, strand-mount FTTH "tap" locations where drop cables are spliced to ...

Aerial & Direct Burial Fiber Optic Cable Enclosure with Fiber Splice Tray for Splicing with Fusion splicer with Fusion Splice Sleeves 60mm (Horizontal 48 Strand)

The fiber splice box is suitable for the straight-through and branch connection of the overhead, pipeline, direct burial and other laying methods of various layout fiber optical cables.

Splice boxes ensure continuously reliable real-time data transmission. With their compact and uniform design, the splice boxes for both the DIN rail and 19" mounting provide ample interior space for the ...

It's simple two-piece design with a snap-on cover allows quick and easy mounting on practically any flat surface (wall, backboard, furniture) or on a standard wall electrical outlet box/bracket (both American ...
