

Outdoor rack-mounted immersion liquid-cooled 2025 model in stock

OceanCool R Series Immersion Cooling OceanCool R Series immersion liquid cooling solutions consist of a modular immersion liquid cooling basin, in-rack coolant manifold, and an intelligent monitoring ...

Improving the efficiency of data center cooling systems and reducing energy consumption are crucial to achieving the "dual carbon" goals. Among them, immersion liquid cooling has the highest heat ...

DCX's Immersion Modular Datacenter immerses servers in a dielectric fluid, delivering direct heat absorption and drastically reducing cooling overhead. This fully sealed, compact solution is easy to ...

Reliable, integrated cooling - from chiller and economizer plants to computer room air conditioners - tackles the issues head on to lower costs and reduce downtime risk. We provide all levels of heat ...

Linus heads to the roof to see how Supermicro is transforming data center efficiency with their complete liquid cooling solutions, offering everything from cold plates to cooling towers, with capacity to deploy ...

Experience next-generation immersion cooling solutions from GRC. Our solutions increase performance, enhance sustainability and optimize TCO, setting new standards of data center cooling efficiency.

Experience unmatched cooling power with the Midas 50U immersion cooling tank. Designed for high-performance heat dissipation and energy efficiency.

We're leading the pack, with direct-to-chip immersion-cooled server systems that quickly integrate into existing racks and provide an entirely new level of performance.

Ingrasys offers a complete line of rack-level liquid cooling solutions based on where the heat is exhausted in the data center. These solutions include options for exhausting heat entirely into the ...
