

P241 Relay Protection

The MiCOM P241/P242/P243 universal motor protection relays have been developed and designed for the protection of medium sized to large rotating machines, both synchronous and Induction.

MiCOM P241/P242/P243 Rotating Machine Protection Relay, SW Version 57, Manual (global file) P24x/EN M/C52

Thermal overload, stall protection, unbalanced protection are provided, schemes are provided. but sensitive earth fault and short-circuit detection are also possible.

* Taxes, Freights, Insurances will be charged extra.

It supports PRP, HSR and RSTP in one model, allowing a single P40 model to be used in any application requiring redundant Ethernet communications. The new ...

The MiCOM P241/2/3 universal motor protection relays have been developed and designed for the protection of medium sized to large rotating machines, both synchronous and Induction.

Schneider Easergy Micom P241 Relay offer advanced protection, control and monitoring of motors and rotating machines. Models available: MiCOM P241, MiCOM P242, MiCOM P243. The Easergy ...

Easergy(TM) MiCOM P24x relays offer advanced protection, control and monitoring of motors and rotating machines. Models available: MiCOM P241, MiCOM P242, MiCOM P243

This document provides essential technical information for the MiCOM P24x series of rotating machine protection relays, specifically covering models P241, P242, and P243.

The MiCOM P241 is a motor protection relay by Schneider Electric offering comprehensive protection features like overcurrent thermal overload differential and voltage protection along with advanced ...
