

PLC surge protection distribution box

This section will identify the surge protectors to efficiently protect the multiple inputs and outputs of a PLC from power input (UL 1449 5th Edition) to signal and communication lines (UL 497B).

For dc-distribution-panel applications, the SPD must be selected for the DC bus voltage and polarity-specific configuration, with particular attention to photovoltaic, battery, or telecom DC architectures.

Industry's first high-voltage eFuse, the TPS266x devices, integrate all of the necessary functions required to simplify the complete protection needs. This application report describes how the ...

In this article, we outline three surge protection solutions --for signal lines, for supply lines, as well as for Fieldbus and Ethernet-APL applications. The M-LB-4000 surge protection system ...

The amount of surge current varies from what environment the equipment is in and what energy sources can couple onto the lines. I/O modules are used in industrial applications that can have surge events ...

Shop high quality surge protection devices at AutomationDirect. Low prices, fast shipping, outstanding quality, satisfaction guaranteed.

A surge-related failure of a PLC can halt production lines, disrupt manufacturing processes, and cause delays. By installing TPD surge protection, the risk of PLC failure due to electrical anomalies is ...

The following guides and product pages from TrilPeak cover the complete PLC surge protection hierarchy--from main service entrance to cabinet signal lines. External standards ...

Discover the different types of surge protectors (SPD) used in distribution board panels. Learn how to select the right surge protector based on protection level, and rated discharge current to safeguard ...

Installed at the controller, MCG PLC-15A answers the need for compact,dependable protection in a hostile factory environment. The PLC-15A installs easily in minutes and eliminates factory noise and ...
