

## Pedal switch light distribution box

Choose a switch with the right trigger type, number of inputs, and control functions to power your equipment. Choose from our selection of pedal switches, including foot switches, wet-location foot ...

The third pole can be wired to control an LED status light or other custom function. The triple pole switch allows you to wire in an on/off indicator led, if desired, while the Dpdt does not.

On-Stage GSP1000 ABY Switcher Pedal (True Bypass Guitar Signal Router, 1-In/2-Out or 2-In/1-Out, Heavy-Duty Aluminum Housing, LED Indicators, Non-Slip Base - Black)

The third pole can be wired to control an LED status light or other custom function. ...

Get professional-grade aluminum stomp box cases for your effects pedal builds. Durable and customizable options available.

Find foot switches and pedal switch options for hands-free control. Order from RS for quick delivery!

Engineered for quick installation and user-friendly operation, the 6X includes backlit LED switches, labeled wiring, and a compact faceplate that fits seamlessly into vehicle interiors.

This will complement the functionality of loopers and pedals on your pedal board and will provide you a better way to mix your pedals effects to obtain a better sound.

As the title says, I'm looking for a stomp box that will toggle the electric signal to all other pedals in the pedal chain (i.e. a light switch). I'm not looking for a mute pedal, I want to actually block the electric ...

I have designed a new pedal board and I am in the process of building this (think pedal train but with aluminium channel and 18mm ply supports). I'm now thinking about redoing the power ...

Diodes prevent damage from electrical feedback. Includes 7-way to 6-way coiled adapter cord and 6-way socket. If the engine is off and your car's brake lights illuminate when you press the brake pedal, ...
