

Polish Direct Sales 800G Fiber Ethernet Switch

With a maximum power consumption of 2000 W and an operating temperature range of 0°C to 40°C, Celestica DS4101 is a powerful choice for organizations building open, scalable, and ultra-high ...

The Edgecore AIS800-64D / DCS560 is a high-performance, low-latency switch ideal for data centers, AI/ML clusters, and high-performance computing. It features 64x QSFP-DD800 ports and offers ...

Our UfiSpace 800G networking solutions, featuring the standalone Tomahawk 5 Ethernet Switch Series and the Distributed Disaggregated Chassis (DDC) equipped with Jericho3 and Ramon3, are ...

A next-generation, highest-capacity switch for data center spine use case. Breakout options include 2 x 400G, 4 x 200G, and 8 x 100G per port, with a maximum of 160 logical ports.

The Cisco N9364E-SG2 are 2-Rack-Unit (2RU) 64-port 800 Gigabit Ethernet switches available in both QSFP-DD and OSFP form factors. They support 51.2 Tbps of bandwidth and ...

Watch the video to learn how DS5000 delivers consistent, high-performance and low latency, helping you stay ahead of the demands of today's evolving digital landscape.

Analysis shows that AI and machine learning workloads are driving 800G port shipments to record highs in 2025, a trend that will reshape the entire Ethernet switch market over the next five ...

The SSE-T8164 comes with 64 OSFP 800G ports in a 2RU form factor to meet the leaf, spine and super spine datacenter architectures. The interfaces provide flexibility to meet a variety of speeds and use ...

FS 400/800G PicOS data center switches offer high speeds and port densities to meet the network deployment requirements of various scenarios and the evolving requirements of next-generation data ...

The M2-W6940-64OC data center switch offers 64-port 800GbE interfaces in a 2 RU fixed box, which delivers high performance with complete L2 and L3 forwarding features in modern large-scale data ...
