

# RF Adjustable Attenuator Integrated Chip

Frequencies range from 1MHz to 50GHz. Digital attenuators are available with up to 7-bits and 0.25dB steps. Please use the Attenuator search below to select your product, or call us for availability and ...

Our low-cost chip attenuators line is high-reliability-tested with an immersion tin finish for solder applications and features small and lightweight packaging and overall frequency response. These ...

Fully integrated RF Chip Attenuators with selectable fixed attenuation are designed to simplify RF signal control by reducing power levels and improving signal integrity in a small, reliable package.

Available in various configurations, RF attenuator components and parts offer precise, reliable control for managing RF signals across numerous applications. Trust Octopart for all your RF semiconductors ...

Attenuators are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Attenuators.

Explore our full line of RoHS-compliant, high-reliability, and custom chip attenuators engineered for microwave circuits, amplifiers, phased arrays, and satellite applications.

Analog Devices" RF attenuators are available in a broad range of architectures and form factors, giving designers the flexibility to select a part that best aligns with their system requirements.

View the pSemi 2025-2026 Product Catalog to see our complete RF product portfolio.

Mini-Circuits is a global leader in the design and manufacturing of RF, IF, and microwave components from DC to 86GHz.

We offer a robust portfolio of in-stock, adjustable RF attenuators and phase shifters for multiple applications, including test instrumentation, cellular communication, wireless communications, ...
