

Series laser diode

Shop DigiKey's large in-stock selection of Laser Diodes, Modules. View inventory, pricing and order now for same day shipping!

The LASOS[®]; LDM-XT laser series is the latest generation of laser diode modules designed to fulfil specific customer's needs for a particular application. Its modular concept allows adapting different ...

These lasers combine highly reliable IPG single emitter diodes with delivery fibers for OEMs and end users in need of a simplified diode laser solution. These units include a range of output options ...

A very interesting 3D imaging application using our PICOPOWER-LD(TM) picosecond diode laser has been published by Stanford University. For more information please refer to the Stanford ...

RPMC Lasers: Huge selection of Standard & Custom Solid-State Lasers, Diodes & Modules, designed for a variety of markets and applications.

Within the BAL series, wavelengths between 653 and 1,120 nm are available with output powers between 1 and 19 W in cw mode or even up to 90 W in pulse mode s high pulse energy and fast ...

The LDH Series offers a broad portfolio of picosecond pulsed diode laser heads spanning wavelengths from the UV to the NIR. Each diode laser head combines carefully matched drive electronics and ...

Explore high-performance pulsed laser modules for defense, aerospace, lithography, metrology, and advanced research. Designed for precision and reliability, our ILC series features nanosecond ...

Laser diodes are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many laser diode manufacturers including ams Osram, KYOCERA AVX, ...

Diode Laser Modules Coherent Diode Laser Modules are compact, economic modules that provide the beam shape, wavelength, and power you need for your instrument or research.

Series laser diode
