

Spectrometer Battery

Light Weight (1 lb) Lithium-Ion battery pack can power any StellarNet spectrometer, including the TE coolers of the BLACK-Comet, SILVER-Nova, Raman, and any DWARF-Star NIR spectrometer.

Spectrometer Battery--high-performance power engineered for precise stability, extended runtime, universal lab compatibility, and built-in protections to ensure reliable analytical performance.

Shop high-quality spectrometer batteries for lab and portable instruments. Long-lasting, OEM-quality power for reliable analytical performance.

A replacement battery for the SPARK Science Learning System, Wireless Spectrometer, Polarimeter, and the SPARKlink Air. This is a drop in replacement for the battery that comes shipped with each ...

This is a direct replacement for the OEM XLBS2742 battery pack, specifically made for units with serial number 107623. We know you rely on your analyzer for on-the-spot material testing, so we made ...

Find reliable spectrometer batteries for various analytical instruments. High-quality, long-lasting, and affordable options from top suppliers. Perfect for industrial use.

Find your battery spectrometer easily amongst the 6 products from the leading brands (Jeol, Optosky, Trace2o, ...) on DirectIndustry, the industry specialist for your professional purchases.

New 420-002 For Niton XL2/XL3/XL2T/XL3T/800/980 Handheld Spectrometer Batteries and Chargers for Thermo Metal Analyzers \$ 130.00 - \$ 270.00

Spectro uses the method of electrochemical impedance spectroscopy (EIS) to measure battery performance. This technology opens a new frontier in battery testing. The performance of a starter ...

Product Description XLBS 2742 Battery For Hitachi OXFORD Handheld Spectrometer Analyzer X-MET Series Model:XLBS 2742 Li-Ion Battery 14.4V 3100mAh 44.6Wh Fit For Hitachi OXFORD ...
