

Yemen Broadcasting Single-Mode Fiber Optic Transceiver Gigabit

The transmission of a channel optical signals can be completed by single fiber. It has doubled in quantity of fiber data transmission compared with twin fiber type.

Our mission is to provide innovative fiber optical transceivers, Serving open data center and open optical communication markets. All the optical modules independently developed by the company can ...

2 x Gigabit Ethernet Ports + 1x RS-232 + RS-485 Over a Single Fiber This full-duplex fiber converter transmits two Gigabit Ethernet channels, one RS-232, and one RS-485 signal over a single optical fiber.

The 1000BASE-LX SFP transceiver remains a cornerstone technology for robust, long-distance Gigabit Ethernet connectivity. Understanding its specifications, deployment requirements ...

TeleYemen is the exclusive provider of international telecommunications for Yemen--fixed-line and wireless mobile companies, telex, and Internet services--and is one of the mobile-phone operators.

This data sheet describes the benefits, specifications, and ordering information for the Cisco SFP Modules for Gigabit Ethernet Applications.

Our converters support 10/100Base and 1000Base Gigabit networks. Our single strand fiber media converters comply with IEEE 802.3, 802.3u Ethernet standards. The TX and RX wavelengths are ...

The transceivers are available for single-mode or multimode fiber-optic cabling and can support distances from 100 meters up to 40 kilometers.

Bidding for Telecommunications tenders in Yemen is extremely lucrative for companies of all sizes. Yemen tendering authorities release contracts for most of the Telecommunications products and ...

FS gigabit ethernet transceiver solutions provide fibre or copper options including 1000BASE-SX, 1000BASE-LX/LH, 1000BASE-T etc., from 100m to 160km, for 1G switches, routers, servers, NICs ...
